MJ Industries™
TOP SHELF SOLUTIONS FOR TODAY'S LIBRARIES.™

The MJ Advantages

Recessed Uprights: All uprights are recessed 4½" into the carriage and then bolted to create a monolithic bond between carriage and shelving system. Surface mount option is available if using existing shelving.

Anti-Tip Rails: Are available for combinations that are not considered freestanding or to ensure extra stability.

Length of Carriages: MJ mechanical assist carriages are available to accommodate any given space.

Wheels and Rails: Are precision fabricated to ensure consistency from one range to another, using solid steel axles and drive shafts. All wheels are 5", precision ground and self lubricating. Continuous solid driveshaft drives all wheels on one side of the carriage to ensure that the entire carriage moves at the same speed. Rails are constructed of solid steel and connected using two steel integrated dowels. This achieves maximum alignment both vertically and horizontally creating a smooth guide rail. Rails are leveled every 9" with steel shim plates thus eliminating the need for grout.

Chain Adjustment: To provide continuous smooth operation, a chain tension adjustment is easily accessed in the field for minor adjustments.

Aisle Lock Passive Safety Restraint (PSR): All users are protected at each aisle with our passively operated automatic locking device. Also available with dual entry installations.

Mechanical Assist: Aisle entry accessed by stainless steel rotating handles.

Shelving Accessories: All MJ WF-1000 and Four Post shelving systems and accessories are available.

End Panels: Standard metal panels provided or decorative panels available to match any architectural elements desired.

Floor System: To be provided by MJ Industries or your local servicing dealer.

Flexibility of Sizes: Standard WF-1000 sizes 24, 30 & 36" wide units. Standard Four Post sizes 24, 30, 36, 42 & 48" wide units. Custom sizes available upon request.

Finish Selection: Our state-of-the-art powder coating paint system gives us the most durable paint finish in the industry with 14 standard MJ Industries colors available for your selection. Special colors can be custom matched.

On Time Delivery: Deliveries can be made in 6-8 weeks after receipt of order.

We have a nationwide sales organization which is fully trained to assist you with your library planning. Contact MJ Industries at **800-247-4353** for the name of your local representative.
