

LEADING EDGE CONCEPT AND DESIGN

Palmieri Furniture

Warm hardwoods merge with cool steel to create Palmieri's Empire collection, a range of smoothly silhouetted contemporary pieces unmatched in aesthetic value and structural integrity.

PALMIERI

EMPIRE

Palmieri Furniture

Empire reading tables and upholstered side chairs add vibrant color to San Diego Mesa College's \$20M Learning Resource Center.

WORK SURFACES

A solid external hardwood edge, handsomely radiused to a full bullnose detail, frames hardwearing .050" thick high-pressure plastic laminate. All four corners are sectored to form a smooth, 2 1/2" radiused corner detail.

Work surfaces may be fitted with various electrical options including 3" diameter grommets and steel J-channels for wire maintenance.

PANELS

Empire index tables, PAC tables and study carrels feature side panels, mid panels, and/or back panels that are constructed of 3/4" and 1" plywood veneers. Top and front external edges receive a 1/4" radiused hardwood band.

The end, mid and/or back panels of modular study carrels, modular reference carrels, atlas stands and dictionary stands are faced with grade "A" select veneers. All four edges of each panel receive a 5/16" solid hardwood border. End and mid panels are machined to receive a 1 1/2" diameter, 16-gauge steel leg.

All shelves are faced with 3/4" grade "A" select veneer plywood or laminate and front edges are banded with 1/4" solid hardwood. Shelves are mounted to panels by means of metal flanges.

The Empire atlas stand is available with a panel or leg (shown here) base.

LEGS AND APRON RAILS

Legs and apron rails are crafted of 16-gauge steel, which is powder-epoxy coated for durability in a choice of colors. Tubular legs are 2 1/2" in diameter and attach to index, reading, PAC and table carrel tabletops using a radiused steel plate and threaded machine bolt assembly. The outside corner of

A 2" metal surround embraces a steel plate and machine bolt assembly of legs, tabletop and apron rail.

each plate receives the bold detail of a 2" high metal surround.

The legs of modular reference carrels, panel reference carrels and PAC terminals are 1 1/2" in diameter and are fitted with key-hole screws to allow assembly in one-, two-, three-, and four-way configurations.

SEATING

Empire side chairs and armchairs replicate the smooth lines of Empire carrels and tables. Frames are 1 1/2" diameter seamless cold rolled tubular steel, finished with welded steel dome end caps. Seats and backs are contoured for optimum comfort and are available in upholstered and wood veneer finishes.

Massachusetts-based Northampton High School selected a variety of Empire designs for its library facility.

THE EMPIRE PRODUCT LINE

The Empire line of furnishings is available in a variety of standard finishes.

For complete product line details, please consult the Palmieri Furniture Ltd. Product Specification Manual or contact your local Palmieri Furniture dealer.

- Atlas Stand (Leg or Panel Base)
- Chair (Side or Arm)
- Dictionary Stand
- Display Table
- Index Table (Four- or Six-Place Double-Sided)
- Magazine Rack
- Modular Panel Carrels (Single- or Double-Faced; Add-On available)
- Modular Reference Carrel
- Modular Study Carrel (Single- or Double-Faced; Add-On available)
- PAC Table (One-, Two-, or Three-Place)
- Reading Table (Rectangular, Round or Square)
- Reference Carrels (Single- or Double-Faced; Add-On available)
