HELPING TO PROTECT OUR ENVIRONMENT

LYPTUS® WOOD AND THE VISTA COLLECTION ENVIRONMENTALISM

PART OF OUR TRADITION

Palmieri Furniture has handcrafted library furnishings of enduring quality and superior workmanship for more than 35 years. We recognize that, in order to carry this tradition into the future, we must consider the sustainability of the forest products we use.

As a Forest Stewardship Council certified manufacturer, we've been entrusted in a chain of custody that ensures our products originate from well-managed forests. Now we've expanded our selection of eco-friendly product offerings even further by utilizing a unique, responsibly grown premium hardwood: Lyptus®.

WHAT IS LYPTUS®?

A hybrid of two eucalyptus species, Lyptus® exhibits the density of maple and the appearance of mahogany. But unlike these premium hardwoods, which take decades to reach maturity, Lyptus® can be harvested in just 14 to 16 years. This is because the wood thrives in the warm climate of Brazil, where it is plantation-grown among reintroduced indigenous trees to preserve the natural habitat. For these reasons, Lyptus® wood represents a fully sustainable and renewable resource. It allows our industry to meet the demand without depleting the supply... or sacrificing quality.

DENSITY AT 12% MC: A COMPARISON

Species	Lyptus®	Hard Maple	Cherry	White Oak	Birch
kg/m³	650	630	500	680	620
lb/ft³	40	39	31	42	38

Source: Weyerhaeuser

INTRODUCING VISTA

The outstanding workability and luxuriant hue of Lyptus® wood has inspired the creation of an entirely new Palmieri collection: Vista. The collection's premiere piece, the rectangular table, unites a contemporary, streamlined design with traditional Old World craftsmanship.

The Vista table's work surface is comprised of durable, high-pressure plastic laminate and bordered with an eased, solid 2" edgeband. The edgeband's underside receives a solid 2" trim piece detail, inset 1" from the edge. Bolstered by the legs, the trim piece conceals the table's mechanical assembly.

A pair of routed details at the top and one at the bottom of each square leg creates an elegant profile. Made of solid, 2-3/8" hardwood, the legs accept two horizontal rails along the short sides of the table. In a design detail reminiscent of the Mission style, these rails buttress 8 quadrilinear posts. Braced between the two lower rails is a solid rectangular stretcher, which completes the table's robust, yet balanced, silhouette.

Lyptus® wood receives commonly used stains and finishes well. With a rich, red tone that rivals that of mahogany or cherry, natural Lyptus® wood is striking when finished with clear premium lacquer, as shown here.
